Profile

Self-taught developer of 5+ years of experience in different fields of programming. I excel the most in web development and I have high motivation for improving and learning new technologies.

Employment History

Mid Software Engineer, Kantun Devs, Rijeka

DECEMBER 2022 — PRESENT

Skills: Next.js · Git · TypeScript · JavaScript · React.js

Javascript Developer, Dotmetrics, Zagreb

JUNE 2022 — NOVEMBER 2022

Skills: Git · Lit · SASS · TypeScript · JavaScript · Node.js · HTML5

Frontend Developer, Kantun Devs, Rijeka

OCTOBER 2021 — JUNE 2022

Work with NextJS framework and Strapi headless-CMS, React, GraphQL.

Skills: Git · GraphQL · strapi · nextjs · TypeScript · JavaScript · Node.js · React.js

Frontend Developer, E-GLAS, Rijeka

DECEMBER 2021 — NOVEMBER 2022

Built web page Kokolingo; page used by kids and parents to correct speech disorder in React.

Page has been localized to Croatian, English and Polish language using React Intl.

Helped create CI for tests that run on Kokolingo web app using Docker.

Skills: Git · GatsbyJS · WordPress · HubSpot · JavaScript · Node.js · React.js

Intern Software Developer, B.I.D. grupa, Rijeka

JUNE 2016 — AUGUST 2020

Started my school apprenticeship in 2016 and continued my apprenticeship which in the end let to me work for them in 2019 all the way up to 2020.

During those years I learned and created a few simple HTML websites, worked with WordPress and helped with finding bugs/potential errors on their sites.

Worked as a software developer intern where I created HTML parser for specific booking sites that was used to parse user questions/inputs.

Those inputs were later categorized in JSON object, including the corresponding language they were written in.

Worked and helped with creating chat bot and generate/add/mark necessary data that was used to help train that bot.

Skills: Chat bot Development · JavaScript · HTML5 · Cascading Style Sheets (CSS) · Python (Programming Language)

Education

Full-stack Developer, iOLAP Summer Academy, Rijeka

AUGUST 2021 — SEPTEMBER 2021

Successfully finished 6-week training program for full-stack web developer.

First three weeks were teaching about frontend, backend and DevOps. Last three consisted of creating a fully fledged web application.

The application my team and I had to create was a PROJECT SETUP APP where specific users could create their own projects and assign various information (for which client the project is meant for, start and end date, budget etc.).

Skills: Git · PostgreSQL · SQL · REST APIs · TypeScript · JavaScript · Apollo GraphQL

Computer technician, Srednja skola za elektrotehniku i racunalstvo

SEPTEMBER 2016 — SEPTEMBER 2020

High school
